My Voice, Your Choice: Proof that Drinking and Driving Kills

"Imagine looking at the newspaper and you see a picture of your Mother, brother, sister or friend...and the cover reads *Killed by a Drunk Driver*"

Local speaker, Michelle Golebiowski, knows about the deadly consequences of impaired driving - Michelle's best friend Mandy was killed by an impaired driver:

This all happened during my first two weeks of university. I got a call from Mandy on a Saturday afternoon saying she was working and wanted to know if I wanted to join her for a ride in the tow truck, something we often did. She knew I had just lost my grandpa, and wanted to take me out to cheer me up.

I told her I couldn't come for the ride, still feeling pretty sad, and had a lot of homework still ahead of me. So she agreed to a rain check, wished me well, and told me that she would talk to me later. I was supposed to be with her later that night in the truck, and later never came..."

As Michelle walks around a silent classroom telling her story of loss, she uses the same newspaper that covered the accident that killed her best friend. Bringing it to a personal level for the class of teen drivers to be, Michelle speaks to the fact that all choices made can not only affect you, but others as well.

Michelle's powerful presentation based on personal experience, covers a variety of options young drivers have when faced with drinking and driving. Leaving teens with the knowledge and confidence needed to make the right choice, the choice to never drink and drive. For more information on Michelle please visit her website at:
